

ARCHIMEDE

Vintage

Early aviators needed highly accurate, easily readable watches to navigate with. The ARCHIMEDE Vintage models are reminiscent of pilot's watches from the 1920s.

The large luminous numbers and ornate skeleton hands mean the time is easily readable, even in conditions with low-light. The fine satin finish stainless steel case has a sapphire crystal on top and a characteristic large (8mm) onion crown. The Swiss made ETA 2824-2 automatic movement is visible through the mineral crystal display back. The strap is black or brown calf leather with contrasting white stitching.
